

DAVIS SMA: Selective. Attractive Growth. Undervalued.

"What gives us confidence that our SMAs may build wealth for our shareholders in the years and decades to come? The compelling attributes of our businesses.

By being highly selective and rejecting the vast majority of companies in the index, we've built portfolios in which the gap between price and value is among the widest we have ever seen. We believe this sets the stage for attractive returns in the years ahead."

Chris Davis, Portfolio Manager
