† The Attractive Growth and Undervalued reference in this piece relates to underlying characteristics of the portfolio holdings. There is no guarantee that the Portfolio's performance will be positive as equity markets are volatile and an investor may lose money. **Past performance is not a guarantee of future returns.** Five-Year EPS Growth Rate is the average annualized earning per share growth for a company over the past five years. The value for the portfolio is the weighted average of the five-year EPS Growth Rates of the stocks in the portfolio. Approximately 4.20% of the assets of the Portfolio are not accounted for in the calculation of 5-year EPS as relevant information on certain companies is not available to the Portfolio's data provider. The 5-year EPS of the S&P 1500 is 15.1%. Forward Price/Earnings (Forward P/E) Ratio is a stock's price at the date indicated divided by the company's forecasted earnings for the following 12 months based on estimates provided by the Advisor's data provider. These values for both the Portfolio and the Index are the weighted average of the stocks in the Portfolio or Index. The Forward P/E of the S&P 1500 is 22.5x. ‡ For information purposes only. Not a recommendation to buy or sell any security. ** Sources: Davis Advisors and Clearwater Wilshire Atlas. § Net of fees. As of 06/30/25.

Effective 1/1/11, Davis Advisors created a Multi-Cap (SMA) Composite which excludes institutional accounts and mutual funds. Performance shown from 1/1/06 through 12/31/10 of the Davis Advisors' Multi-Cap SMA Composite includes all eligible wrap accounts with a minimum account size of \$3,500,000 from inception date for the first full month of account management and includes closed accounts through the last day of the month prior to the account's closing. For the performance shown from 1/1/11, through the date of this report, the Davis Advisors' Multi-Cap SMA Composite includes all eligible wrap accounts with no account minimum from inception date for the first full month of account management and includes closed accounts through the last day of the month prior to the account's closing. Wrap account returns are computed net of a 3% maximum wrap fee. For the gross performance results, custodian fees and advisory fees are treated as cash withdrawals. A list of Davis Advisors' Composites is available upon request.

Performance shown from 1/1/99 through 12/31/05 is the Davis Advisors' Multi-Cap Equity Composite which includes all actual, fee-paying, discretionary Multi-Cap investing style institutional accounts, mutual funds, and wrap accounts under management including those accounts no longer managed. Effective 1/1/98, a minimum account size of \$3,500,000 was established. Accounts below this minimum are deemed not to be representative of the Composite's intended strategy and as such are not included in the Composite. A time-weighted internal rate of return formula is used to calculate performance for the accounts included

in the Composite. For the net of advisory fees performance results, custodian fees are treated as cash withdrawals and advisory fees are treated as a reduction in market value. For mutual funds, the Composite uses the rate of return formula used by the open-end mutual funds calculated in accordance with the SEC guidelines adjusted to treat mutual fund expenses other than advisory fees as cash withdrawals; sales charges are not reflected.

The investment objective of a Davis Multi-Cap Equity account is long-term growth of capital. There can be no assurance that Davis will achieve its objective. The principal risks are: common stock risk, depositary receipts risk, emerging markets risk, fees and expenses risk, foreign country risk, foreign currency risk, headline risk, large-capitalization companies risk, manager risk, mid- and small- capitalization companies risk, and stock market risk. See the ADV Part 2 for a description of these principal risks.

Active Share is a measure of the percentage of stock holdings in a manager's portfolio that differ from the benchmark index.

Data provided herein and references to portfolio herein is representative of a model account. Data provided is as of the date indicated and is subject to change. This material should not be considered a recommendation to buy, sell or hold any of the securities mentioned. We gather our index data from a combination of reputable sources, including, but not limited to, Clearwater Wilshire Atlas, Lipper, and index websites.

The **S&P 1500 Index** is comprised of the S&P 500, MidCap 400, and SmallCap 600, which together represent approximately 90% of the U.S. equity market. Investments cannot be made directly in an index.

The ranges reflected for large, mid, and small cap reflect the current ranges utilized by the S&P Composite 1500 Market Cap Guidelines, as may be amended from time to time. The current ranges are: large-capitalization, over \$20.5 billion; mid-capitalization, between \$7.4 billion and \$20.5 billion; small-capitalization, under \$7.4 billion.

After 10/31/25, this material must be accompanied by a supplement containing performance data for the most recent quarter end.
