* As of 03/31/26. Includes Davis Advisors, Davis family and Foundation, and our employees. † The Attractive Growth and Undervalued reference in this piece relates to underlying characteristics of the portfolio holdings. There is no guarantee that the Portfolio's performance will be positive as equity markets are volatile and an investor may lose money. **Past performance is not a guarantee of future returns.** Five-Year EPS Growth Rate is the average annualized earning per share growth for a company over the past five years. The value for the portfolio is the weighted average of the five-year EPS Growth Rates of the stocks in the portfolio. Approximately 25.50% of the assets of the Portfolio are not accounted for in the calculation of 5-year EPS as relevant information on certain companies is not available to the Portfolio's data provider. The 5-year EPS of the MSCI ACWI ex US is 15.0%. Forward Price/Earnings (Forward P/E) Ratio is a stock's price at the date indicated divided by the company's forecasted earnings for the following 12 months based on estimates provided by the Advisor's data provider. These values for both the Portfolio and the Index are the weighted average of the stocks in the Portfolio or Index. The Forward P/E of the MSCI ACWI ex US is 14.7x. ‡ For information purposes only. Effective 9/23/14, Davis Advisors created an International Equity SMA Composite which excludes the institutional accounts and mutual funds. Performance shown from 10/1/14, through the date of this report, the Davis

Advisors' International Equity SMA Composite includes all eligible wrap accounts with no account minimum from inception date for the first full month of account management and includes closed accounts through the last day of the month prior to the account's closing.

A time-weighted internal rate of return formula is used to calculate performance for the accounts included in the Composite. The net of fees rate of return formula is calculated based on a hypothetical 3% maximum wrap fee charged by the wrap account sponsor for all account services. For the gross performance results, custodian fees and advisory fees are treated as cash withdrawals.

Davis Advisors is committed to communicating with our investment partners as candidly as possible because we believe our investors benefit from understanding our investment philosophy and approach. Our views and opinions include "forward-looking statements" which may or may not be accurate over the long term. Forward-looking statements can be identified by words like "believe," "expect," "anticipate," or similar expressions. You should not place undue reliance on forward-looking statements, which are current as of the date of this material. We disclaim any obligation to update or alter any forward-looking statements, whether as a result of new information, future events, or otherwise. While we believe we have a reasonable basis for our appraisals and we have confidence in our opinions, actual results may differ materially from those we anticipate.

The investment objective of a Davis International Equity account is long-term growth of capital. There can be no assurance that Davis will achieve its objective. The principal risks are: China risk, common stock risk, depositary receipts risk, emerging markets risk, exposure to industry or sector risk, fees and expenses risk, foreign country risk, foreign currency risk, headline risk, large-capitalization companies risk, manager risk, mid- and small-capitalization companies risk, and stock market risk.

Active Share is a measure of the percentage of stock holdings in a manager's portfolio that differ from the benchmark index.
